The Physics Department will allow you to postpone PHYS 161 until winter quarter in order to complete the prerequisite for Math 124. Note that this will result in taking PHYS 162 & 163 concurrently during year 1.

**MSCI 201 is offered every quarter and should be taken as soon as the prerequisite courses are completed.**

Refer to the Physics Department’s planning documents for further information about the Physics major.

- Materials Science courses.
- * Materials Science minor course prerequisite.
- ** Optional – See Physics Dept.
- ^ Take major electives these quarters.
- (1) PHYS 391 can be taken either winter or spring quarter during year 3.
- (2) PHYS 475 fulfills the Materials Science minor elective requirement.

Refer to the Physics Department’s planning documents for further information about the majors, and work with your major advisor to ensure that you fulfill GUR distributions.

The Materials Science minor can be declared at any time. Contact the Materials Science advisor located in ES 131 or call 360-650-6522 for more information.
