BS in Computer Science 2019-2020

Computer Science Core

Math Requirements

MATH 124, 125, 204, 341

Science Requirements

A three course science sequence chosen from:
- CHEM 161, 162, 163
- PHYS 161, 162, 163
- BIOL 204, 205, 206
- GEOL 211, 212, and one of 303, 308, 309, 314, 315, 340

Computer Science Electives

16 credits of electives from list on back of this page.

Notes

- Students can apply to the CSCI major in the quarter they are completing CSCI 241, 247, 301. At most two attempts at one of these three classes is allowed.
- Math prerequisites are listed underneath the CSCI core courses for which they are required. These are minimum prerequisites and may not be taken concurrently.
- CSCI 491, 492, 493 (the senior project series) should be taken in your last three quarters. Requires department permission to register.
- You must fulfill the requirements of the year in which you declared the major.
- You must pass all required courses and prerequisites with a C- or better.
- Please refer to the catalog for the complete list of requirements for the BS in Computer Science.
